West Lake Landfill (Missouri) (Subsurface Smoldering Event).docx  
New Madrid Floodway (Missouri) (Wetlands and Water Quality Issue).docx

Hi Ed,

Attached are the versions of Region 7's two transition issue papers that we have access to on the SharePoint site. We believe they are the final versions that have been provided to the Landing Team, but have a note into HQ to double check. If we hear any different we will get you that information as soon as we know.

Thank you and have a good weekend,

Katie
